

# Stories of Patients Suffering from Stroke seeking Stem Cell Treatment in Germany

# Introduction

People suffering from stroke are looking for solutions around the globe. Examples of their needs that CBC Stroke Clinic addresses:

## **Stroke Patient – My Mother lost the ability to speak and walk too**

*"Greetings, I am from Iraq and my mother had a stroke and because of Stroke, she lost the ability to speak and walk too! And I did a lot of research to find a Neurologist doctor for the brain and nerves too. But I couldn't find a reliable doctor with extensive experience in treating stroke patients. I beg you to help me because my mother is not feeling well."*

## **Stroke Patient – My Father, Left-sided Hemiparesis**

*"My father had a stroke. He has left-sided hemiparesis. He was admitted to a hospital for 10 days. I think he needs alternative treatment as well as intensive rehabilitation, possibly with admission, as soon as possible. Search for a best solution for my father."*

## **Stroke Patient – My Mother: Ischemic Stroke Patient**

*"My mother had an ischemic stroke 1 year 9 months ago she is having seizures and loss of motor function on her left side. I am desperately looking for alternative therapies for her to improve her quality of life."*

**As we can see many stroke patients are desperately looking for some hope on how they or their loved ones can improve their conditions. They are looking for any hope which can help with their struggles.**
